

INSTRUCTIONS FBFC148

You can stitch this ornament as a regular Free Standing Lace Design. Once it is stitched, rinsed and dry you can also fuse a layer of Clear White embroidery Glitter on top to get the look of a frosted glass ornament.

STITCHING THE DESIGN

Stitch the design on Water Soluble Stabilizer. When done, rinse according to manufacturer's directions and dry. Press with steam when dry.

APPLYING EMBROIDERY GLITTER.

Cut a piece of the Clear White Embroidery Glitter a tiny bit smaller than your ornament. Place over the ornament and cover with a Teflon Pressing cloth. With your iron at its highest setting, fuse for 15-20 seconds.

If desired cut a piece of any color of Embroidery Glitter to cover the back. I used the Green for mine.

This method can be used with any existing free standing ornament! Just cut the shape out of the Clear White Glitter and fuse. It can also be used on embroidery designs stitched on fabric. It will work best on brightly colored designs.

Another option is to just put one of the regular Glitter colors on the back of the ornament. This will save you having to change colored bobbins to make a two faced ornament and add a lot of sparkle!
