

## INSTRUCTIONS FBFC149

You have a regular design in three sizes – Small, Medium and Large and a Glitter design in the same three sizes. Regular designs are 01, 02, and 03 and Glitter designs are 04, 05 and 06.

## STITCHING THE DESIGNS

REGULAR DESGN – stitch as any other design

## GLITTER DESIGN

There are two Basting color stops – Basting 1 (shown as red on the color chart) and Basting 2 (shown as blue). Stitch Basting 1 - it shows you where to place the glitter. Place a piece of glitter to cover the stitching. To hold it down you can use temporary spray, Scotch Magic Tape or even a fabric glue stick (I have tested with several and they don't interfere with fusing the glitter).

Stitch Basting 2 – this will stitch around the shape twice with a small running stitch.

Remove hoop and carefully tear away the glitter. Because there isn't a satin stitch, hold down the glitter close to the stitching as you pull. If any pieces remain they can easily be removed with tweezers or forceps. Return the hoop and continue the design.

For this design, the balloon will stitch first – I used Royal Blue glitter, then the Red Brim and then the white. When these sections have glitter, stitch the remainder of the design.

Fuse the glitter using the hottest setting on your iron and holding for 15 – 20 seconds. BE SURE TO USE A TEFLON PRESSING SHEET!
